

## **Kahibah Public School Student Acceptable Use Agreement for BYOD**

Learning is an ongoing interaction between students, teachers, administrators, and parents. Using mobile technology within education is a tool to help deliver the curriculum. The policies, procedures and information within this document apply to all devices used at school. Individual teachers and administrators may set additional requirements for use in their classroom.

Students must abide by all school rules as outlined in the Kahibah Public School Wellbeing & Discipline Policy and the Kahibah Public School BYOD Implementation Plan (attached).

### **Acceptable Use**

The use of technology resources is a privilege, not a right. This acceptable use agreement is provided to make both students and educators aware of the responsibilities associated with efficient, ethical, and lawful use of technology resources. If a student violates any of the User Terms and Conditions named in this agreement, privileges may be terminated and disciplinary action could be applied. Our Wellbeing & Discipline Policy shall be applied to student violations. When applicable, law enforcement agencies may be involved. Our Kahibah Public School values of Respect, Responsibility and Excellence are expected to be upheld at all times.

With this increased capacity to connect comes an increased need for students to understand the ethical and legal (including privacy and copyright) considerations for safe and responsible behaviour online. To protect students from unsuitable content, website filters will operate at school, content will be periodically checked and learning activities supervised.
